

Environmental Policy Statement

Solagen is committed to the protection of the environment and we are all responsible for minimising the impact we have on it. This commitment extends to all our activities, wherever they take place, which have the potential to adversely affect the environment. We aim to reduce environmental harm, minimize the use of energy and other resources and ensure that the principles of sustainable development are operated throughout the range of activities in which we are engaged.

- reduce and where reasonably practicable eliminate any adverse impact on the environment arising from the activities of our business
- minimise the use of energy, resources consumed and waste produced while undertaking our business activities in a safe and professional manner
- support the re-use and recycling of materials and ensure the safe and legal disposal of all waste arising from the activities of the business
- comply with and wherever possible exceed the environmental requirements of appropriate legislative bodies and our customers
- identify the significant environmental aspects and impacts from current and relevant past activities and services and, where we have direct control or can be expected to have an influence, implement an environmental management system
- ensure that all staff whose work may create a significant impact upon the environment are provided with adequate and appropriate information and training and are competent in environmental matters
- inform and train our staff in understanding and fulfilling their environmental responsibilities and those of the company
- establish and measure environmental performance against objectives and/or targets
- continually improve our environmental performance.

We all have a personal responsibility for working in an environmentally friendly manner; the involvement and participation of everyone will be actively sought and encouraged
